Servers

http://localhost:8080 - Development server ▾

Drying Management APIs for managing drying process records

- GET /api/drying-runs/{runId} Get drying run by ID ▾
- PUT /api/drying-runs/{runId} Update drying run ▾

DELETE	/api/drying-runs/{runId}	Delete drying run	▼
GET	/api/drying-runs	Get all drying runs	▼
POST	/api/drying-runs	Create a new drying run	▼
GET	/api/drying-runs/operator/{operatorId}	Get drying runs by operator	▼
GET	/api/drying-runs/equipment/{equipmentId}	Get drying runs by equipment	▼
GET	/api/drying-runs/date-range	Get drying runs by date range	▼
GET	/api/drying-runs/batch/{batchId}	Get drying runs by batch	▼

Operator Management

APIs for managing personnel/operators

▲

GET	/api/operators/{operatorId}	Get operator by ID	▼
PUT	/api/operators/{operatorId}	Update operator	▼
DELETE	/api/operators/{operatorId}	Delete operator	▼
GET	/api/operators	Get all operators	▼

- POST

/api/operators Create new operator

▼
- GET

/api/operators/status/{activeStatus} Get operators by status

▼
- GET

/api/operators/role/{role} Get operators by role

▼
- GET

/api/operators/certified/{role} Get certified operators by role

▼
- GET

/api/operators/active Get active operators

▼

Quality Control Management

APIs for managing quality control checkpoints

^

- GET

/api/qc-checkpoints/{checkpointId} Get QC checkpoint by ID

▼
- PUT

/api/qc-checkpoints/{checkpointId} Update QC checkpoint

▼
- DELETE

/api/qc-checkpoints/{checkpointId} Delete QC checkpoint

▼
- GET

/api/qc-checkpoints Get all QC checkpoints

▼
- POST

/api/qc-checkpoints Create a new QC checkpoint

▼
- GET

/api/qc-checkpoints/inspector/{inspectorId} Get QC checkpoints by inspector

▼

GET

/api/qc-checkpoints/date-range Get QC checkpoints by date range

GET

/api/qc-checkpoints/batch/{batchId} Get QC checkpoints by batch

GET

/api/qc-checkpoints/batch/{batchId}/stage/{stage} Get QC checkpoints by batch and stage

GET

/api/qc-checkpoints/batch/{batchId}/stage/{stage}/count Count QC checkpoints by batch and stage

GET

/api/qc-checkpoints/batch/{batchId}/count Count QC checkpoints by batch

Equipment Management

APIs for managing equipment and machinery

GET

/api/equipment/{equipmentId} Get equipment by ID

PUT

/api/equipment/{equipmentId} Update equipment

DELETE

/api/equipment/{equipmentId} Delete equipment

GET

/api/equipment Get all equipment

POST

/api/equipment Create new equipment

GET

/api/equipment/type/{equipmentType} Get equipment by type

- GET

/api/equipment/status/{maintenanceStatus} Get equipment by maintenance status

▼
- GET

/api/equipment/available Get available equipment

▼

Raw Intake Management

APIs for managing raw material intake from Plants

^

- GET

/api/raw-intakes/{intakeId} Get raw intake by ID

▼
- PUT

/api/raw-intakes/{intakeId} Update raw intake

▼
- DELETE

/api/raw-intakes/{intakeId} Delete raw intake

▼
- GET

/api/raw-intakes Get all raw intakes

▼
- POST

/api/raw-intakes Create a new raw intake

▼
- POST

/api/raw-intakes/{intakeId}/initialize-batch Initialize batch from intake

▼
- GET

/api/raw-intakes/variety/{variety} Get raw intakes by variety

▼
- GET

/api/raw-intakes/grade/{grade} Get raw intakes by grade

▼
- GET

/api/raw-intakes/farm/{sourceFarm} Get raw intakes by source farm

▼

- GET

/api/raw-intakes/date-range Get raw intakes by date range

▼
- GET

/api/raw-intakes/batch/{batchId} Get raw intake by batch ID

▼

Compliance Management

APIs for managing HACCP compliance records

^

- GET

/api/compliance-records/{recordId} Get compliance record by ID

▼
- PUT

/api/compliance-records/{recordId} Update compliance record

▼
- DELETE

/api/compliance-records/{recordId} Delete compliance record

▼
- GET

/api/compliance-records Get all compliance records

▼
- POST

/api/compliance-records Create a new compliance record

▼
- GET

/api/compliance-records/type/{complianceType} Get compliance records by type

▼
- GET

/api/compliance-records/result/{result} Get compliance records by result

▼
- GET

/api/compliance-records/overdue Get overdue compliance records

▼
- GET

/api/compliance-records/date-range Get compliance records by audit date range

▼

- GET

/api/compliance-records/batch/{batchId} Get compliance records by batch

▼
- GET

/api/compliance-records/auditor/{auditorId} Get compliance records by auditor

▼

Harvest Event Management

APIs for managing harvest events from Plants workstream

^

- GET

/api/harvest-events Get all harvest events

▼
- POST

/api/harvest-events Create a new harvest event

▼
- GET

/api/harvest-events/{harvestId} Get harvest event by ID

▼
- DELETE

/api/harvest-events/{harvestId} Delete harvest event

▼
- GET

/api/harvest-events/variety/{variety} Get harvest events by variety

▼
- GET

/api/harvest-events/grade/{grade} Get harvest events by grade

▼
- GET

/api/harvest-events/farm/{farmId} Get harvest events by farm

▼
- GET

/api/harvest-events/date-range Get harvest events by date range

▼
- GET

/api/harvest-events/batch/{batchId} Get harvest event by batch ID

▼

APIs for managing historical harvest data for forecasting

Historical Harvest Management

GET	/api/historical-harvests	Get all historical harvest records	▼
POST	/api/historical-harvests	Create historical harvest record	▼
GET	/api/historical-harvests/year/{year}	Get historical harvests by year	▼
GET	/api/historical-harvests/year/{year}/total-quantity	Get total harvest quantity by year	▼
GET	/api/historical-harvests/year/{year}/month/{month}	Get historical harvests by year and month	▼
GET	/api/historical-harvests/variety/{variety}	Get historical harvests by variety	▼
GET	/api/historical-harvests/variety/{variety}/year/{year}	Get historical harvests by variety and year	▼
DELETE	/api/historical-harvests/year/{year}/month/{month}/week/{week}/variety/{variety}	Delete historical harvest record	▼

Packaging Management

APIs for managing packaging records

GET	/api/packaging-records/{recordId}	Get packaging record by ID	▼
PUT	/api/packaging-records/{recordId}	Update packaging record	▼

DELETE	/api/packaging-records/{recordId}	Delete packaging record	▼
GET	/api/packaging-records	Get all packaging records	▼
POST	/api/packaging-records	Create a new packaging record	▼
POST	/api/packaging-records/{recordId}/mark-export-ready	Mark packaging record as export ready	▼
GET	/api/packaging-records/export-ready	Get export ready packaging records	▼
GET	/api/packaging-records/batch/{batchId}	Get packaging records by batch	▼

Batch Management

APIs for managing mango processing batches

▲

GET	/api/batches/{batchId}	Get batch by ID	▼
PUT	/api/batches/{batchId}	Update batch	▼
DELETE	/api/batches/{batchId}	Delete batch	▼
PUT	/api/batches/{batchId}/status	Set batch status	▼
GET	/api/batches	Get all batches	▼

- POST

/api/batches Create a new batch

▼
- POST

/api/batches/{batchId}/advance-status Advance batch status

▼
- GET

/api/batches/variety/{variety} Get batches by variety

▼
- GET

/api/batches/status/{status} Get batches by status

▼
- GET

/api/batches/ready-for-shipping Get batches ready for shipping

▼
- GET

/api/batches/farm/{farmId} Get batches by farm

▼
- GET

/api/batches/farm/{farmId}/block/{blockId} Get batches by farm and block

▼
- GET

/api/batches/date-range Get batches by harvest date range

▼

Wash & Sort Management

APIs for managing washing and sorting records

^

- GET

/api/wash-sort-records/{recordId} Get wash sort record by ID

▼
- PUT

/api/wash-sort-records/{recordId} Update wash sort record

▼
- DELETE

/api/wash-sort-records/{recordId} Delete wash sort record

▼

- GET

/api/wash-sort-records Get all wash sort records

▼
- POST

/api/wash-sort-records Create a new wash sort record

▼
- POST

/api/wash-sort-records/{recordId}/complete Complete wash sort record

▼
- GET

/api/wash-sort-records/operator/{operatorId} Get wash sort records by operator

▼
- GET

/api/wash-sort-records/equipment/{equipmentId} Get wash sort records by equipment

▼
- GET

/api/wash-sort-records/date-range Get wash sort records by date range

▼
- GET

/api/wash-sort-records/batch/{batchId} Get wash sort records by batch

▼
